

everyday

A practical, flexible minibus for schools, academies and MATs

The Treka Everyday is a high-quality van conversion designed for the real demands of school transport. Practical, flexible and backed by Treka's 7 year conversion warranty, it gives schools a dependable vehicle for daily journeys, fixtures, trips, SEND transport, enrichment activities and movement between sites.

Available in accessible and non-accessible configurations, the Everyday can be specified around how your school, academy or MAT actually uses its minibus.

Key specifications

Feature	Treka Everyday
 Passenger capacity	Up to 16 passengers, depending on model and layout
 Wheelchair capacity	Up to 2 wheelchair positions
 Accessibility	Available as non-accessible or accessible conversion
 Licence suitability	Many models can be driven on a standard licence, helping avoid additional driver training requirements
 Typical users	Schools, academies, MATs, sports teams, SEND provision and community transport

Choose from a strong range of trusted diesel and electric platforms:

Maxus Deliver 9 and eDeliver 9

Ford Transit and E-Transit

Peugeot Boxer and E-Boxer

Renault Master and E-Tech Master

This gives schools flexibility to select the right vehicle for their routes, payload, budget and sustainability objectives.

Accessible or non-accessible

Not every school needs the same minibus. That is why the Everyday can be built as a straightforward non-accessible school minibus or specified with accessibility features to support pupils, staff or visitors with additional mobility needs.

Accessibility options can include:

-  Passenger lift or ramp options
-  Additional passenger access features
-  Wheelchair restraint systems
-  Practical flooring and interior finishes
-  Removable seating
-  Heating, air conditioning and comfort upgrades
-  Flexible seating layouts
-  Towbar and storage options, where required

Built by a trusted specialist

The Everyday is not an off-the-shelf van with seats added. It is a Treka conversion, built by a specialist manufacturer with long-standing experience in accessible passenger vehicles.

Every Everyday benefits from the same manufacturing standards, technical knowledge and aftercare approach found across the Treka range. That means schools get a practical, durable vehicle backed by people who understand passenger transport, accessibility and the pressures of operating a minibus every day.

Built for school life

The Treka Everyday gives schools a flexible, high-quality minibus that can be specified around everyday journeys, accessibility needs and future fleet plans.

From a simple school transport vehicle to a more accessible, adaptable conversion, the Everyday gives schools, academies and MATs a practical way to keep pupils moving safely and confidently.
